brag (bræg), *sb.*[1] Also 5–8 **bragg**(e, 6 **braggue**. [The etymology of BRAG *sb.*[1], *vb.*, *adj.*, and their mutual relations are uncertain. There are several related words in 16th c. French, *braguer* 'to flaunt, brave, brag', *bragueur*, *braguerie*; *bragard* 'gay, gallant, braggard, braggadochio-like', *bragarder* 'to brave it, to brag, vaunt', *bragardise*, etc. (all in Cotgr.); but as these appear so late, while some of the Eng. words go back to 1300, the latter cannot be referred to a French origin (though the later *braggart* and *braggery* may). The words are not in other Romanic langs., and their origin has been variously sought in Celtic and in Norse: see Diez. It is doubtful whether the *adj.* or *sb.* is the earlier in Eng.; both appear before the vb. The order of senses is also uncertain.

Diez conjectured that the Fr. might be from ON. *brak* 'creaking noise' (Sw. *brak* bounce, Da. *brag*), *braka* (Da. *brage*) 'to creak, crack, *insolenter se gerere*' Haldorss.; others have suggested ON. *bragr* 'the best, the foremost, the boast or toast (of anything)'; also 'poetry'. See Diez, Wedgwood, Skeat.]

[Com. Teut.: OE. *bregdan* (pa. t. *brægd*, *brugdon*, pple. *brogden*) = OS. *bregdan* (MDu. *breiden*, Du. *breien*), OHG. *brettan* (MHG. *bretten*), ON. *bregða*:—OTeut. **bregd-an* (extended from **breg-*), with root-meaning 'to pull quickly hither and thither, to move suddenly to and fro'. In OE. the *g* of the root was often omitted, with lengthening of the vowel (*brédan*, *bræd*, *brúdon*, *bróden*), but the diphthongal form (*breyde*, etc.) prevailed in ME. The pa. pple. had in 13–15th c. the form *broyden*, in 14–16th *browden*, sometimes in 14–15th c. *brawden*; the phonetic history of which presents some difficulties. By 1400 the original strong pa. t. was displaced by the weak *brayded*, which in the 15th c. had also extended to the pa. pple., though *browden* continued in Sc. at least till 1600. From the strong forms of the pa. pple. appear to have arisen the newer synonymous weak verbs BROID, BROWD, BRAWDE q.v.; see also BROIDER, *browder*, *brawder*.]

1. a. The convoluted mass of nervous substance contained in the skull of man and other vertebrates. By some earlier scientific writers restricted to the anterior portion (in Latin *cerebrum*) as opposed to the posterior portion (BRAINLET, *cerebellum*); but this distinction is now expressed by the Lat. words, which have been adopted in scientific use, and *brain* in technical as well as in popular language includes the entire organ; it is also applied by extension to the analogous but less developed organs of invertebrate animals.

In 16th c. it became usual to employ the pl. instead of the sing. when mere cerebral substance, and not a definite organic structure, was meant; this usage still continues: we say 'a dish of brains', 'a disease of the brain'.

I. **1. a.** *Historically*: The general name for all alloys of copper with tin or zinc (and occasionally other base metals). To distinguish alloys of copper and tin, the name BRONZE has subsequently been adopted (Johnson 1755–73 explains the new word *bronze* as 'brass'). Hence

b. In strict modern use, as distinguished from 'bronze': A yellow-coloured alloy of copper and zinc, usually containing about a third of its weight of zinc.

Tbe OE. *bræs* was, usually at least, an alloy of copper and tin (= BRONZE); in much later times the alloy of copper and zinc came gradually into general use, and became the ordinary 'brass' of England; though in reference to ancient times, and esp. to the nations of antiquity, 'brass' still meant the older alloy. When works of Greek and Roman antiquity in 'brass' began to be critically examined, and their material discriminated, the Italian word for 'brass' (*bronzo, bronze*) came into use to distinguish this 'ancient brass' from the current alloy. *Corinthian brass*: a reputed alloy of gold, silver, and copper.

The early forms in *bru-, bry-*, app. of English or Anglo-French origin, are due perhaps to the obscurity of the first vowel. The 15– 16th c. forms in *ber-, bar-* were northern: see BRATTICING. The original sense became obs. before 1500. To modern times the word has come down in local use, chiefly in connexion with coal-mining, in the forms *brettis* (Derbyshire), *brattice* (Newcastle, etc.), *brattish.* Although *brettis* is the best form etymologically, *brattice* has become more generally known, and accepted in literary use; *brattish* has given the architectural *brattishing.*]

brawl, *sb.*[5] dial. var. of BROLL, *Obs.* brat.

brawl (brɔ:l), *v.*[1] Also 5-6 brall(e, braul(e, braull. [Late ME.; origin and primary sense uncertain: mod.Du. has *brallen* to brag, boast, mod.Ger. dial. *brallen* to shout, roar, both apparently recent, and of unknown origin. (Franck thinks the Du. prob. echoic, with influence of various other words.) ON. *bralla* 'to trick, job', does not suit the sense. F. *brailler* to shout, make a din, bawl, found in 14th c. (which Littré thinks a deriv. of *braire* to bray) approaches the sense, but could not phonetically be the source of the Eng. word. The original Teutonic name for bread survives in the modern LOAF (OE. *hláf*, OHG. *hleib*, ON. *hleifr*, Goth. *hlaifs*, *hlaibs*, OTeut. **hlaibo-z*) formerly in all the langs. in the sense of 'bread' and 'loaf'. *Braudoz-*, *brôd*, *bréad*, appears to have originally meant 'piece, bit, fragment, L. *frustum*': but already in OS. and OHG. it had the acquired sense of 'bread'; 'OHG. shows no clear distinction of meaning between *brôt* and *hleib*' (Sievers). In OE. *bréad* is rare: the later Blickling Glosses have the pl. *bréadru*, 'frusta' (i.e. 'pieces, bits'). The other examples are all Northumbrian, in the Lindisfarne (& Rushw.) gloss; viz. *John* xiii. 27, 30 translating *buccella*, the 'mouthful' given to Judas, for which the Ags. Gospels have *bitan*, Wyclif *morsel*, Rhemish *morsel*. In verse 26 where the Vulgate twice renders the same Gr. word (ψωμίον bit, piece) by 'panem', later versions 'bread', the Ags. has *hláf*, Lindisf. *laf*, which seems to show that *bréad* was not yet identified with *panis*. But in *John* vi. 23, *bréad* actually represents *panem* of the Vulgate (= ἄρτον), and *hláf* of the Ags. version: where however *broken bread* is in question. Before 1200 *bread* had quite displaced *hláf* as the name of the substance, leaving to the latter the sense 'loaf' which it has since retained. It thus appears that a word originally meaning 'piece, bit, *frustum*', has passed through the senses of 'piece of bread', 'broken bread', into that of 'bread' as a substance; while at the same time the original word for 'bread, loaf, *panis*' has been restricted to the undivided article as shaped and baked, the 'loaf'. The Lowland Scotch and north. dial. use of *piece* illustrates anew the first step in this transition, for it is the regular word for a piece of bread, as in 'give the bairn a piece', 'a beggar asking a piece', a 'piece-poke', a 'gie's-a-piece' i.e. a beggar.

So also in Slovenish, '*kruh*, "bread" is literally "a piece, something broken off" ' (Miklosich, *Etym. Wbch. Slav. Spr.* 143).

With *brôd*, *bréad*, Prof. Sievers connects the Ger. *brosame* crumb, in OHG. *brôsma*, OS. *brôsmo*:—OTeut. *braudsmon-*, the sense of which confirms the original meaning of **braudoz-*, and points to some root having the sense of 'break'. OE. *bréotan* does not answer phonetically. (The preceding facts are, of course, quite inconsistent with the conjecture that *bread* ia a deriv. of the verb-root *bru* to BREW.)]

Forms: 1 brecan (*Northumb.* brican), 2–5 breken, 3–6 breke, 6–7 breake, 6– break; (also 2–3 breoken, 3–4 brec, 4 brek, 4–5 breek, 5 brakyn, byrkyn, 6 *Sc.* brek, breik, 7 breack). *Pa. t. sing.* 1–3 bræc, 2–4 brac, (*Orm.* bracc), 3–5 (& 6 *Sc.*) brak, 4– (*Sc.*) brack; also 2–3 brec, 3 breac, 4 brek, breck, 4–5 breek, breke, 6 breake, 4–8 brake; *pl.* 1 brǽcon, (2 breaken, breoken), 2–4 breken, 3–4 breke, 4 breeken; also 3–5 braken, (2–5 *north.* brak, 4 brac, 4– brack); *sing.* and *pl.* 4–6 (7–9 *arch.*) brake, 6– broke, (6 brooke, 7 broak). *Pa. pple.* 1 brocen, 2–3 ibroken, 3– broken, (3–5 brokun, -yn, 4–5 y-broke), 4– broke, (7 broak, brake, 8 *Sc.* breaken). [OE. *brecan* (*bricþ*, pa. t. *bræc*, *brǽcon*, pa. pple. *brocen*), corresp. to OFris. *breka*, OS. *brekan*, (MDu., Du. *breken*), OHG. *brehhan* (MHG., mod.G. *brechen*), Goth. *brikan* (pa. t. *brak*, *brêkum*, pple. *brukans*):—OTeut. stem *brek-*, corresp. to L. *frag-* (*frang-o*, *frēgi*, *fractum*), Aryan **bhreg-*. The original short vowels of the present stem and pa. pple were lengthened in ME., though *breck*, *brick*, and *brocken* are still retained dialectally. The normal pa. t. *brak*, *brack* (= OE. *bræc*, Ormin's *bracc*), remains in the north; the normal plural in ME. was *brēken*, *breeke(n*, which would have become *breake* in 16th c.; but by the operation of levelling, we find also a ME. sing. *brēk*, *breek*, and a (north.) pl. *brak*, *brack*; a pl. *braken* occurs in Layamon, and in late ME. *brāke* became the regular form both in sing. and pl., which, being retained in the Biblc of 1611, is still familiar as an archaic form. But early in the 16th c., if not before, *brake* began to be displaced by the modern *broke*, formed after the pa. pple. Of the pa. pple., *broken* is still the regular form, but from the end of the 14th c. this was often shortened to *broke*, which was exceedingly common in prose and speech during the 17–18th c., and is still recognized in verse.]

(Many of the uses of this verb are so contextual, that it is difficult, if not impossible, to find places for them in a general scheme of its signification: when not found here, they may be sought under other words of the phrase.)

[OE. *bréost* = OFris. *briast*, OS. *briost*, *breost*, ON. *brjóst*, (Sw. *bröst*, Da. *bryst*) neuter, answering to an OTeut. type **breusto*(*m*): represented in Goth. by *brusts* fem. pl. (no sing.):—OTeut. **brust-s* consonantal fem., 'prob. originally inflected as a dual' (Kluge), whence OHG. (MHG., mod.Ger.) *brust* fem., MLG. (MDu., Du.) *borst* fem. (with metathesis of *r*). The term is confined to Teutonic, there being no common Indo-Europ. name for the breast. As to the form and derivation, see below. OE. *éo* became normally ME. *ē*, *ee*, mod. *ee* (i:), and in Sc. and north dial. *breast* rimes with *priest*; but in Standard Eng., the *e* has been shortened before the two consonants; the spellings *breast* and *brest* run side by side from 16th to 18th c.; in current usage we spell *breast* and pronounce *brest*.

The difference of vowel in OTeut. **breust-*, **brust-* is explained by the fact that all monosyllabic consonantal stems had originally shifting stress, with corresponding ablaut (**breust-s*, **brust-óz*); the neuter gender in OE., OS., and ON. by the supposition that **breust-s* was orig. inflected as a dual (the two breasts) of which the nom. and acc. **breustô-* would later become **breust*, *bréost*, which after the loss of the dual would naturally be treated as neuter pl., as in other known instances. Even in senses 2, 5, the plural was usual in OE., as exclusive in Gothic. **Breust-* cannot be connected with *berstan*, *brestan* to burst: but it may be related to the OS. verb. *brustian* to bud, and be a root-noun from a vb. **breust-an* (see Lexer under *brust*), a specialized derivative of **breut-an* (i.e. **breut-stan*, **breustan*; cf. **brek-stan*, *brestan*, f. *brek-an*). The 'breasts' would thus be orig. the *mammæ* or paps, likened to 'buds' or 'sprouts'. See further Kluge *Beiträge* VIII. 510.]

[OE. *brǽw, bréaw*, Anglian **bréw, bréȝ, bréaȝ*, masc. 'eye-lid'; according to Sievers, an *i-* stem, OTeut. type **brǽ'wi-, brǽ'hwi-*; cf. OFris. *(âg-)brê*, neut.: the corresponding word elsewhere is a fem. *â-* stem, OS. *brâwa, brâha* (LG. *braue*, MDu. *brauwe*, Du. *wenkbraauw* eye-brow), OHG. *brâwa, brâa, brâ*, eye-lash (MHG. *brâwe, brâ*, Ger. *(augen-)braue* eye-brow, also *-braune*, a modern corruption from the pl. *brâwen, brauen, braun*), ON. *brá, brǫ* eye-lid:—OTeut. **brǽwâ*, from **brǽhwâ*. The Gothic **brêwa, *brêhwa* is not preserved; but cf. *brahw* 'blink, twinkle', *in brahwa augins* 'in the twinkling of an eye'. This points to a radical

sense 'blinker, twinkler' as a name of the eye-lid (or eye-lash), in which case this word cannot well be referred to the same root as BROW, OTeut. *brû-* 'eye-brow', as generally assumed. Yet the two words curiously interchanged in use in different langs., and at different periods; and in continental WGer. the *brû-* forms were lost, and their place supplied by forms from *brâ̆wâ-*. The original sense of *brû-* was 'eye-brow'; in OE. extended and transferred to 'eye-lash', so that 'eye-brow' was distinguished as *ofer-brú*. The original sense of *brâ̆wâ-* was app. 'eye-lid', as in ON. and OE., but in OHG. restricted to 'eye-lash', and thence subsequently extended and transferred to 'eye-brow' (orig. *obara brâwa*), the sense 'eye-lash' being brought down to modern times by the compound *wint-brâwa*, MHG. *wint-brâ*, *winbrâ*, mod.Ger. *wimper*. OE. had *brú* = eye-lash (*cilium*), *brâ̆w*, *bréȝ* = eye-lid (*palpebra*); by the 13th c. *bru*, *brouw* passed to the sense 'eye-lid', and *brew* (*breow*, *breȝ*, *bree*) to that of 'eye-brow'; the latter sense was retained by *bree* in the north, after it had in turn been taken up by *brow* in the south. From 15th to 17th c. *bree* was used by some southern writers as = 'eye-lash', a curious reversion to what had been the original OE. sense of *brú*, BROW, q.v. (The ON. cognate *brȳ* gave BRAE.)

(The parallelism of **brû-* and **brâ̆wâ-* is further seen in the fact that 'eye-brows' was expressed in OHG. by *obarun brâwa*, *ubarbrâwo* (Graff III. 315), in OE. by *oferbrúa*, and in ME. *uvere breyhes*, *briȝes aboue þe eiȝes*, *aboue breghis*. For the phonetic explanation of the late WS. form *bréaw* from *brâ̆w*, see Sievers *Ags. Gram.* (ed. 2) §112, 118.)]

breeze (bri:z), *sb.*[2] Forms: 6–7 brize, brieze, 7 brise, brese, breze, breaze, 7–8 breez, breese, 7– breeze. [In 16th c. *brize*, *brieze*, app. ad. OSp. (and Pg.) *briza* (mod.Sp. *brisa*) 'north-east wind' (though, according to Cotgrave, *brize* also occurs in Fr. (in Rabelais *a* 1550) = *bize*, *bise* 'north wind'). Cf. also It. *brezza* 'cold wind bringing mist or frost' (Florio), Milanese *brisa* 'cool wind from the north' (Diez). Cotgrave's *brize* = *bize*, supports the suggestion of Diez, that the word was orig. a variant of *bisa*, *bise* 'north east wind'. On the Atlantic sea-board of the West Indies and Spanish Main, *briza* acquired the transferred senses of 'north-east trade-wind', and 'fresh wind from the sea', in which it was adopted by the English navigators of the 16th c. The further extension to 'gentle fresh wind' generally, is English; cf. the actual F. *brise* (in the Dict. of the Academy only since 1762).]

†**2.** a. The cool wind that blows from the sea by day on tropical coasts. (This was on the Atlantic sea-board of tropical America an east or north-east wind, i.e. a *breeze* in sense 1; thence the name was extended to the 'sea-breeze' from any point of the compass.) *Obs.* exc. as in b.

Bretwalda (brɛt'wɔ:ldə). *Hist.* [OE.: occurring once in the Chronicle, where the Parker MS. (in its oldest part written *a* 900) has it thus, while the later MSS. read variously, B *brytenwalda*, C *bretenanwealda*, D and E *brytenwealda*, F *brytenweald*; and twice in a charter of King Æthelstán as *brytænwalda*, *brytenwalda*. See below.]

A title given in the Old English Chronicle to King Egbert, and (retrospectively) to seven earlier kings of various Old English states, said to have held superiority, real or titular, over their contemporaries; also occasionally assumed by later Old English kings: its sense can only be 'lord (or ruler) of the Britons', or 'of Britain'; cf. the Roman title *dux Britanniarum*, and the *Brettonum dux* of Beda, *rector Britanniæ* of Æthelstan. (See Rhŷs *Celtic Britain*, Freeman *N.C.I.*)

[*Note.* It is uncertain whether the later forms are genuine fuller forms, traditional equivalents, or merely etymologizing alterations of *Bretwalda* 'ruler of the Bretts' (cf. *Ælwalda*, *Alwealda*, *Ealwealda* 'All-ruler, Almighty'). The element *bryten-* occurs also in several compounds, all poetic, in the sense 'far-stretching, spacious', as in *bryten-cyning*, *bryten-grund*, *bryten-rice*, *bryten-wang*; whence Kemble wished to explain *brytenwalda* as 'wide ruler'. But in the charter of Æthelstán, the equivalence of 'Brytenwalda ealles ðyses iȝlandes' to 'rector totius huius Britanniae insulae' shows its identity with *Britannia*. Kemble's conjectured derivation of *bryten-* from *bréotan* 'to break' is etymologically impossible; and there can be little doubt that, even in the poetic compounds, the word is simply a poetic use of *Bryten*, *Breoten* Britannia, or of *Breotone* (:—*britum*) Brittõnes, Britons. These compounds may actually have been formed on the model of *bryten-walda*, or, if earlier, may have had reference to the *far-reaching extent* of Britain, as compared with any single state in it; or finally, the word *breotone* Britons, may have been taken poetically for 'men', 'people', or 'nations', as apparently in *Satan* 1. 687 *burg and breotone* cities and peoples or nations. It is not impossible that *Bretwalda* was suggested by a British title, such as **Brithon-wletic*, **Brython-wledig* = Brittonum dux.]

bribe (braɪb), *sb.* Also 5–6 brybe. [*Bribe* sb. and vb., and *brybour*, appear together in Chaucer and his contemporaries: their previous history is obscure. OF. had *bribe* in sense of 'piece of bread, frustum panis', *esp.* 'a peece, lumpe, or cantill of bread giuen vnto a beggar' (Cotgr.); the same senses occur with med.L. *briba*: see Du Cange. Cf. Walloon *brib* alms, Sp. *briba* mendicancy, It. *birba* vagabond's trade; also OF. *briber*, *brimber* to beg (*intr.*), be a mendicant, Walloon *briber*, Sp. *bribar* to lead a vagabond life, be a strolling beggar, It. *birbare* 'to play the sly knave' (Florio); also OF. *bribeur*, *brimbeur* mendicant, strolling beggar, with Sp. *bribon*, It. *birbone*, *birbante* vagrant, vagabond, and the ME. *bribour*, BRIBER sense 1; also OF. *briberie*, *brimberie*, Rouchi *briberie*, Walloon *bribreie* mendicancy. The ulterior history is quite unknown; if the sense of OF. *bribe* is the original, the order of development would appear to have been 'piece of bread', 'alms', 'living upon alms', 'professional begging'. Hence, app. from practical association, the English sense 'to steal, plunder'. The further history in English is also involved, but appears to be somewhat thus: in *bribe* sb. the early sense of 'theft, plunder, spoil', appears to have been transferred to the 'black mail' or 'baksheesh' exacted by governors and judges who abused their positions, and thus to gifts received or given for corrupt purposes, whence the later sense of the vb. The transition is best seen in the agent-noun *briber*, where we have the series, 'beggar', 'vagabond', 'thief', 'robber', 'extortioner', 'exactor of black mail', and 'receiver of baksheesh' (the Baconian sense). The sudden and startling change from the Baconian 'briber', who received douceurs, to the modern 'briber' who gives them, can be explained only by taking the latter as a separate derivative of the verb in its latest sense.]

†**1.** A thing stolen or robbed; theft, robbery; spoil, plunder. *Obs.* (The Chaucer quotation is doubtful: if the sb. is right, it might perh. have the sense of 'an alms', as in OF.)

2. 'A reward given to pervert the judgment or corrupt the conduct' (J.).

a. The earlier sense probably regarded it as a consideration extorted, exaeted, or taken by an official, a judge, etc.; i.e. as the act of the receiver: cf. BRIBER.

brick (brɪk), *sb.*[1] Forms: 5 breke, (*pl.*) brikkes, 5–6 bryke, 6 brike, brikke, bryk, bryck(e, 6–7 bricke, 6– brick. [Found only since the middle of the 15th c.; not in the *Promptorium* 1440, or *Catholicon* 1483: prob. a. F. *brique*, in OF. also *briche*; quoted by Godefroy 1264 (*briche*) and 1457 (*brique*) in sense of 'a form of loaf', and also in OF. in sense of 'broken piece, fragment, bit', and reinforcing a negative in sense 'not a bit'. Still in Burgundian and Hainault dial., in sense 'piece', *brique de pain* 'piece of bread', in Swiss Romance 'piece, bit, débris', mod.Pr. *briga* 'débris'. It would appear therefore that the OF. word was derived in some way from the Teutonic verb *brek-an* to break (cf. F. *brèche*, ONF. *breke*, *breque* breaking, BREACH), and that its original sense was 'broken piece', which passed through the general sense 'piece, bit', or the specific sense 'piece of bread as baked, loaf', to that of 'piece of baked clay'. In French *une brique*, the shaped object, would thus be earlier than *la brique*, the substance; but in English the earliest examples yet found are of the substance.]

1. A wedding feast or festival; a wedding.

(The sense 'wedding feast' is distinct in early usage; by the time of Wyclif the word was often extended to include the whole proceedings of the wedding or marriage, in which use it was often made plural (cf. L. *nuptiæ, sponsalia*, F. *noces*, ME. *sposailes*, mod. *nuptials*); it is now chiefly poetic, except when used attributively (see 2).

I. As separate word.

1. a. A woman at her marriage; a woman just about to be married or very recently married.

The term is particularly applied on the day of marriage and during the 'honeymoon', but is frequently used from the proclamation of the banns, or other public announcement of the coming marriage. In the parliamentary debate on Prince Leopold's allowance, Mr. Gladstone, being criticized for speaking of the Princess Helen as the 'bride', said he believed that colloquially a lady when engaged was often called a 'bride'. This was met with 'Hear! hear!' from some, and 'No! no!' from others. Probably 'bride elect' would have satisfied critics.

(MDu. and MLG. *bernsteen*, Du. *barnsteen*, Ger. *bernstein*) is used with the sense 'amber'. Skr. *vātin-gaṇa*, all applied to the same fruit. (See below.)]

The Anglo-Indian name of the fruit of the Egg-plant (*Solanum Melongena*).

[Few names even of plants exemplify so fully the changes to which a foreign and unintelligible word is liable under the influence of popular etymology and form-association. Cognate with the Sp. *alberengena* is the Fr. *aubergine*, dial. *albergine*, *albergaine*, *albergame*, also without the *al-*, *belingèle*, and, with *m* for *b*, *merangène*, *melongène*, botanical Lat. *melongēna*, It. *melanzana*, *mela insana* (= mad apple). All these go back to the Arabic *bāðinjān*, and ultimately to Skr. *vātin-gāna*, whence also Hindustāni *baingan*, *began*. The Malay *berinjalā*, prob. from Pg., illustrates the Anglo-Indian form (see Devic, and Yule). In the West Indies *brinjalle* has been further corrupted to *brown-jolly*. The Sanskrit name is said to mean 'the class (that removes) the wind-disorder (windy humour)', a meaning supposed to connect it with *vārttāku*, another name of the same plant, which is said to have a *māruta-nāśin* or 'wind-removing' effect. brisk (brɪsk), *a.* and *sb.* Also 7 briske, brisque. [First found in end of 16th c.; evidently familiar to Shakspere and his contemporaries. Derivation uncertain: Welsh *brysg* (used of briskness of foot) occurs in a poem of the 14th c. This appears to answer in form to OIr. *brisc*, Ir. *briosg*, Gael. *brisg*, Breton *bresk*, 'brittle', 'crumbly'; but it is not easy to connect the senses.

It is however possible that *brisk* is identical with F. *brusque* (which appears as *bruisk* in Sc. *c* 1560, and as *bruske* as early as 1600); at least Cotgr. gives *brisk* as a translation of *brusque*, and the words appear to have influenced each other in early use. See BRUSQUE.]

1. a. The proper name of the whole island containing England, Wales, and Scotland, with their dependencies; more fully called Great Britain; now also used for the British state or empire as a whole.

After the OE. period, *Britain* was used only as a historical term, until about the time of Henry VIII and Edward VI, when it came again into practical politics in connexion with the efforts made to unite England and Scotland; in 1604 James I was proclaimed 'King of Great Britain'; and this name was adopted for the United Kingdom, at the Union in 1707. After that event, *South Britain* and *North Britain* are frequent in Acts of Parl. for England and Scotland respectively: the latter is still in occasional (chiefly postal) use. (So *West Britain*, humorously or polemically for 'Ireland'.) *Greater Britain* is a modern rhetorical phrase for 'Great Britain and the colonies', 'the British Empire', brought into vogue in 1868.

Broad Church. [See BROAD *a.* 11.]

A designation popularly applied to members of the Church of England who take its formularies and doctrines in a broad or liberal sense, and hold that the church should be comprehensive and tolerant, so as to admit of more or less variety of opinion in matters of dogma and ritual. Also sometimes applied to the corresponding school of opinion in other churches. (Often *attrib.*)

The phrase came into vogue about 1848, and is framed on the analogy of the far older 'High Church' and 'Low Church'; but it is not used in the same manner, the Broad Churchmen, so called, not having, like the High and the Low Church, a party organization, and seldom acting together as a party. According to the Master of Balliol (Prof. Jowett), the term was first proposed in conversation, in his hearing, by A. H. Clough, and became colloquially familiar in Oxford circles, a few years before 1850. In 1850 Dean Stanley claimed in an article on the Gorham Controversy in the *Edinburgh Review*, that the Church of England as a whole is of necessity neither 'High' nor 'Low', but *broad*, in which there was evidently a reference to the term as one superior to party. But in 1853 the Rev. W. J. Conybeare, in an article in the same Review on 'Church Parties', used 'High', 'Low', and 'Broad', as recognized party designations. Already in the 17th c. Dryden had referred (*Hind & P.* iii. 160) to the more tolerant divines of the church as 'your sons of latitude', (l. 187) 'your sons of breadth', (l. 229) 'your broadway sons'.

[**1850** STANLEY in *Edinb. Rev.* July 266 There is no need ..for minute comparison of the particular formularies of the Church to prove..that it is, by the very conditions of its being, not High or Low, but Broad.] **1853** W. J. CONYBEARE in *Edin. Rev.* XCVIII. 330 Side by side with these various shades of High and Low Church, another party of a different character has always existed in the Church of England. It is called by different names; Moderate, Catholic, or Broad Church, by its friends; Latitudinarian or Indifferent by its enemies. Its distinctive character is the desire of comprehension. Its watch-words are Charity and Toleration. *Ibid.* 273 The three great parties which divide the Church of England..commonly called the Low Church, the High Church, and the Broad Church parties. **1860** *Quart. Rev.* Oct. 497 The authoress [Geo. Eliot] is neither High-Church nor Low-Church, but a tolerant member of what is styled the Broad-Church party. **1884** *Edinb. Rev.* July 198.

Hence **Broad-Churchism, Broad-Churchman.**

III*, viii., an. 1482, 'broad cloths', two yards within the lists, are distinguished from 'streits', one yard wide within the lists.] Fine, plain-wove, dressed, double width, black cloth, used chiefly for men's garments. (The term is now used to imply quality rather than width, which may vary considerably; the 'double' merely represents that the piece is creased or folded double, i.e. with its two 'lists' brought together; a process not adopted with cloth of less than 54 inches wide.) Brobdingnag ('brɒbdɪŋˌnæg). Often incorrectly **Brobdignag.** The name given by Swift in *Gulliver's Travels* to an imaginary country where everything was on a gigantic scale. Hence used *attrib.* as: Of, or pertaining to, that country; of huge dimensions; immense; gigantic.

(Swift subsequently wrote a mock letter from 'Captain Gulliver' to his cousin Sympson (purporting to be dated 27 April 1727, but first published in Dublin ed. 1735), complaining that *Brobdingnag* had been erroneously printed for *Brobdingrag*; but this was only a feint to mystify the public by a pretended solicitude for minute accuracy. The early editions have all *Brobdingnag*. See CRAIK *Life of Swift* (1882) 535–7.)

brogue (brəʊg), *sb.*² Also 6 brog, 7 brouge, 7–8 broge. [a. Irish and Gael. *brōg* 'shoe, brogue, sandal' (O'Reilly):—OIr. *brōce* shoe, app.:—OCelt. *brācca*: see BREECH.

(The phonetic series *brācca, bröce, brōg*, is normal. But the sense-history is difficult: the word has in Ir. and Gael., and had even in OIr., only sense 1. Sense 2 looks as if Englishmen had confounded the Ir. *bróg* with the *mogan*, a kind of legging, covering the whole leg as well as the upper surface of the foot. Yet the etymological identity of *brōcc* with Gaulish *brācca*, would point to a covering for the legs ('barbara tegmina crurum') originally. The sense of the first quot. is doubtful.)]

broiden, *pple. a. Obs.* Also 3 ibroiden, ibroyde, 5 broydyn. [A pa. pple. of BRAID *v.* (cf. ABRAID, which had also *abroiden*), and thus a doublet of BROWDEN, which was the normal form, since OE. *oɣ* became *ow*, *ou* in ME. But the combination was very rare before a consonant: so that evidence is wanting to show whether *oɣd* might become *oid* as well as *owd*, or whether in the case of *broiden* we have a kind of analogical variant of *broden*, somewhat on the model of *breden*, *breiden* of the infinitive. The question is the more important that the *oi* in *broiden* is apparently the source of that in BROID, BROIDER, and their derivatives, in all of which it is unexpected.

(*Littré* has Prov. *broydar*, for *brosdar* = F. *broder*, but although F. *broder*, and Eng. *broden*, were certainly confused at a later date, we cannot see how *broiden*, *abroiden* could be in any way affected by the Prov. word.)]

[In 15th c. *broudre*, *brouder*, taken as the equivalent of F. *brode-r*, *brouder*; 'to stitch, embroider' (of which the regular Eng. repr. was *broude*, BROWD). It is not clear whether the terminal *-er* represents the F. infinitive (as in *render*, *tender*, etc.), or had some other origin. The typical forms during the 16th c. were *browder* and *broder*; *broider* (exc. as implied in BROIDERER, q.v.) is found only later; its *oi* is evidently due to the association with BROID 'to braid', so common in the 16th c.]

broker ('brəʊkə(r)). Forms: 4-5 brocor, brokour, brocour(e, 6 brooker, brokar, 7 broaker, 5- broker. See also BROGGER. [ME. *brocor, -our, brokour*, a. AngloF. *brocour* (also *broggour*) = ONF. *brokeor* (:—L. type **broccātōrem*), nom. *brokiere* (:—L. **broccātor*) of which Godefroy has one example explained by him as 'celui qui vend du vin au broc', as to the precise sense of which see below. The Central Fr. equivalent was *brocheor, brochière*; and the word is the agent noun of the OFr. vb. *brochier*, ONF. *brokier* (:—L. **broccāre*) in the sense 'to broach' or 'tap' a cask. *Brocheor, brokeor* stand in precisely the same relation to the sb. *broche, broc*, and the vb. *brochier, brokier*, as *tapster* or rather the earlier *tapper* stand to the sb. *tap*, and vb. to *tap* in Teutonic: the *brocheor, brokeor, brokour*, or *broker*, was lit. a tapster, who retailed wine 'from the tap', and hence, by extension, any retail-dealer, one who bought to sell over again, a second-hand dealer, or who bought for another, hence a jobber, middleman, agent, etc. Cf. sense of L. *caupo*.

The Romanic vb. *broccare* was evidently f. *brocco, brocca* in the sense of 'spike, piercing instrument' (:—L. *broccus, brocca* adj.: see BROACH). But these sbs. appear to have afterwards had their sense modified from the verb, so that in the OF. *vendre à broke*, or *à broche*, in mod.F. *vendre à broc*, the sense passed from 'broach', to 'broaching, tapping', and at length to 'the quantity of wine drawn at a broaching or tapping', and hence 'the jug or vessel which held this', as in mod.F. *broc* (from 5 to 10 litres). Anglo-French had also a deriv. form *abrocour*, and there were Anglo-Latin words *abrocator, abrocamentum*; also *brocarius* 'proxeneta, interpres et consiliarius contractuum', and *abrocarius*. *Brocarius* appears to have been formed on the sb. (*broc(c)a, broc(c)us*); *abrocarius* must have been formed on the apparent analogy of *brocator, abrocator*.]

bronze (brɒnz), *sb.* [a. F. *bronze* (16th c. in Littré), ad. It. *bronzo* 'brass or bell-metal' (Florio); whence also Sp. *bronze*, *bronce*. The origin of the It. is uncertain: Muratori, cited by Diez, thinks it formed from *bruno* 'brown', through an intermediate **brunizzo*, **bruniccio*:—late L. *brunitius* 'brownish, brown-coloured'. But this is very doubtful phonetically. Diez also mentions Venetian *bronza* glowing eoals, 'perh. the Ger. *brunst* fire, burning, heat', as possibly connected.]

1. a. A brown-coloured alloy of copper and tin, sometimes also containing a little zinc and lead. Formerly included under the term BRASS, q.v.; the name *bronze* was introduced for the material of ancient works of art, or perhaps rather for the works of art themselves: see sense 2.

The ratio of the constituents in ordinary bronze is about 8 or 9 parts of copper to 1 of tin; in bell-metal the proportion of tin is much greater. See BELL-METAL. (A bronze currency was introduced in Great Britain instead of copper in 1860; but from traditional habit, a bronze coin is still called familiarly 'a eopper'.)

broose. *Sc.* Also brooze, bruise, bruse. [Sc. pron. (brø:z, bry:z): of unknown origin. The suggestion of Jamieson that the word is the same as *brose* or *brewis* is absurdly impossible; (though phonetically it might be *broos*, pl. of BROO): mod.Sc. (ø:, y:), derives from OE. *ó* or Fr. *u*.] A race on horseback, or on foot, by the young men present at country weddings in the north, the course being from the place where the marriage ceremony is performed (in Scotland the bride's former home) to the bridegroom's house. Hence *to ride, run, win the broose*. (The prize is usually a coloured silk handkerchief.)

It is understood to be a survival from primitive marriage customs: probably the whole wedding cortège formerly conveyed the bride at full gallop to the bridegroom's house; but now the race is kept up by the young men only, the rest of the procession following at leisure. brother ('brʌðə(r)), *sb.* Pl. brothers, brethren ('brɛðrɪn). Forms: 1 bróðor, -ur, -er, 2–5 broþer, 3– brother (*passim* -err, -ir, -ere, -re, -yr, broither), 4–6 broder, -ir, -yr, 6 bruder; *mod.Sc.* brither. *Plural*: see below. [A Common Teut., and Common Aryan word: OE. *bróðor* = OFris. *bróther*, *bróder*, OS. *brôthar* (MDu. and Du. *broeder*, MLG. and mod.LG. *broder*), OHG. *bruodar* (MHG. *bruoder*, Ger. *bruder*), ON. *bróðir* (Sw., Da. *broder*), Goth. *brôþar*:—OTeut. **brôþar*:—OAryan **'bhrāter*, *-tor*, *-tr*, whence also Skr. *bhrātr*, Gr. *φρᾱτηρ*, L. *frāter*, OSlav. *brātŭ*, OCelt. **brāter* (Ir. and Gael. *brathair*, Welsh *brawd* (from **brawdr*), Breton *breur* (formerly *breuzr*).

As in some other words in OE. long *ō*, the mod. form has undergone more than the usual vowel change, which would have left it ('bru:ðər). In ME., esp. in north. dial. and Sc., the *th* was often written *d*, perhaps after *fader*, *moder*. The OE. dat. sing. was *bréðer*; the gen. was the same as the nom. and remained so in Scotch down to 1600, as in the connexion *broder son* (nephew), *broder bairn*, *broder wyfe*, *broder dochter*, which have often been misunderstood by modern readers. The plural has had a great variety of forms: viz. in OE. *bróðor*, *-ur*, *-er* (like the sing.), and *bróðru*, *-ro*, later *-ra*, also once *broepre* (in Anglian, in Rushworth Gloss); and with collective sense, *ȝebróðer*, and *ȝebróðru*, *-ro*, *-ra*. In early ME. the *Lambeth Homilies* have *brọpre*, *brepre*, and rarely *brepren*; the *Trin. Coll. Hom.* *brọpren* and *brepren*; *Ormin* and *Gen. & Ex.* have always *brepre*, *brepere*; of *Layamon* the first text has a variety of forms, most frequently *brọp(e)ren*, frequently *brep(e)ren*, rarely *brọp(e)re*, (never *brepre* or *breper*), once *brọperne*, once *broperes*; the second text has always *broperes*, *bropers*. The Jesus MS. poems in *O.E. Misc.* have usually *brọpren*, which is the regular form in *Ayenbite*; *broth(e)ren* occurs in many writers down nearly to 1600. In northern Eng., from the earliest distinctive specimens, the regular plural form was *breper*, *brether*; often used also by non-northern writers. The standard English plural, down to 1600, was *brep(e)ren*, *brethren*. *Brothers*, after its early appearance in Layamon, is not quoted again till the end of the 16th c., when it is used by Shakspere indiscriminately with *brethren*. In the 17th c. *brothers* became the ordinary form in the literal sense; *brethren* being retained in reference to spiritual, ecclesiastical, or professional relationship.

The original Teut. pl. nom. corresponding to Aryan **'bhrātres*, would be **brôþriz*, whence regularly ON. *bræðr*. The corresponding OE. **bróeðer*, **bréðer* is unexpectedly wanting: but the Mercian *bróepre*, and its ME. descendant *brethre* (see *β*) may possibly be a remnant of it. The northern *brether* (see *γ*) may actually have come down from **bróeðer*, though it may also merely be *brethre* with the final *e* dropped. The OE. *-u*, *-o* (*-a*) forms are difficult to explain: it has been suggested that they might be originally duals (like *sculdru* from *sculdor* masc.). They were regularly represented by ME. *brothre* (see *α*). *Brothren*, *brethren* exemplify the usual passage of sbs. having vowel plurals in southern early ME. into the *-en* type. The early occurrence of the modern *brothers*, as well as its subsequent non-appearance till the end of the 16th c., is notable and requires further investigation. In the genitive pl. *breðere* occurs in *Gen. & Ex.*; *brepern -e* in *St. Brandan*; *breper*, *brepers* was northern; *brethren's* standard Eng., now, in ordinary use, *brothers'*.]

B. Signification: **I.** as simple *sb.*

1. The word applied to a male being to express his relationship to others (male or female) as the child of the same parent or parents.

In the singular usually defined by a possessive word expressed or implied as 'my brother', 'the king's youngest brother', 'the brother of your friend', '(our) Brother Jonathan', 'come, (my) brother!'; in the plural, this may be absent, if the relationship is between the individuals themselves, as in 'they are brothers (*i.e.* to each other)'.

a. *properly.* The son of the same parents. But often extended to include one who has either parent in common with another (more strictly called *half-brother*, or *brother of the half blood*); also to a BROTHER-IN-LAW. See *brother-uterine* (in 9 d), also BROTHER-GERMAN, GOOD-BROTHER. (Also applicable to animals.)

b. ***a man and a brother***: a phrase taken from the motto on the seal of the British and Foreign Anti-Slavery Society, 'Am I not a man and a brother?' approved by a Committee of the Society on 16 Oct. 1787.

(The design, a kneeling slave in chains, uttering the words, was shortly after produced as a cameo, black on white, by Wedgwood, and became extremely popular as a personal ornament. The seal is in regular use by the philanthropic society, which still carries on the war against slavery and the slave trade.)

Often united by a hyphen, esp. in the singular, so as to make clearer the attributive relation of *brother* to the second word (contrast *brother-officer* with *brother John*); but in the plural this is sufficiently shown by the inflexion of the second word and non-inflexion of *brother*. brother-german (ˌbrʌðəˈdʒɜːmən). Pl. **brothers-german** (formerly **brethren-**). [f. BROTHER *sb.* + GERMAN.] A brother through both parents; a 'whole' brother.

Early writers also used it as = 'brother on the mother's side, brother-uterine'; it has been proposed in modern times to restrict it to 'brother on the father's side'.

brotherhood ('brʌðərhʊd), also †brotherhead. Forms: *a.* broþerhede, broiþer-, broder-, brodurhede, brethered, 4–5 bretherhede, 5 breþerheed, 4– 6 brotherheed, 5 bretherheed, britherhed(e, brodirhede, broþerhed, 5–6 bretherhed, brodered, 6 (breethreed), bretherhead, brodirhed, brotherhed, -head(e, -hedde. *β.* 5 broder-, broþerhode, breþerode, britherhod, 5–6 brotherode, -hode, 6 brotherhoode, 6– brotherhood. [Not in OE.: the earlier ME. form *broþerhede* was, in form, a derivative of BROTHER and *-hed*, *-hede*; but arose probably from the accession of the earlier BROTHERRED(E (which goes back to OE.) to the *-hede* class, through the intermediate *brothered(e*, the ending of which might be either *-rede* or *-hede*. This is made still more likely by the fact that the variant *brotherhode* (whence the modern *brotherhood*) is not found before the 15th c.; whereas *childhood*, *maidenhood*, *wifehood*, and other genuine derivatives in *-hood* go back to an OE. *-hád* and early ME. *-had*, later *-hōd*(*e*, with *-hed*, *-hede* as an occasional ME. variant. See -HEAD, -HOOD, -RED. The variant *bretherhede* was frequent from the 14th c. till about the Reformation, evidently by association with the *brether* or *brethren* of a guild or order: 'the bretheren and sustren of the bretherhede'.]

brow (braʊ), *sb.*¹ Forms: 1 brú (*pl.* brúa), 2 bruw(e, 3 brouwe, brou, bruu, 3–4 brue, 4 brwe, brewe, 4–7 browe, 5 brou3, broue, 5– brow. [OE. *brú* fem., inflected on the type of an OTeut. *brûâ-* str. fem., but prob. only an OE. accession to the *â-* declension of a WGer. or primitive OE. *brú* of the type of *cú, sú*:—OTeut. **brû-s* (= Skr. *bhrū-s* eye-brow, Gr. *ὀφρύ-ς*). The original sense appears to have been 'eye-brow', but it must have been extended at an early date from the hair over the eyes to that on the eye-lids, the 'eye-lashes', for this was the normal sense in OE., the eye-brows being distinguished as *ofer-brúa* i.e. over-eye-lashes, or otherwise contextually. From the eye-lashes, the name appears to have been transferred step by step to the eye-lids, the eye-brows, the prominences of the forehead, and finally to the forehead as a whole. See also BREE *sb.*¹, and cf. BEETLE-BROWED.

ON. *brú* fem. 'bridge' was perhaps the same word, with a transferred sense; but the ON. word actually used for 'eye-brow' was *brún*, pl. *brýnn*, conjectured to be a secondary form from *brû-* founded on the gen. pl. *brú-na.* (Cf. mod. G. *braune* brow, founded on the pl. *braun, brauen*, MHG. *brâwen*, pl. of *brâwe.*) In the other Teutonic langs. **brû-* is lost, and its place supplied by **brâwâ-*; thus OHG. *brâwa* eye-lashes, *obarun brâwa, ubar-brâwa*, eye-brows, mod.G. *augen-braue, -braune* (see above) eye-brow, *wimper*, MHG. *wintbrâwe* eye-lash, Du. *wenkbraauw* eye-brow, all of which belong to OTeut. **brâwâ-*, WGer. *brâw*, OE. *bræw*; see BREE.
